

Icon

# Stop the MARBURG VIRUS

Campaign brand name

## Description

Our brand icon consists of two symbols: an illustration of the Marburg virus and a stop symbol, representing public responsibility in halting the spread of the disease.

## Meaning

### Blue

Our primary color is blue, chosen to align with the government's visual identity. It symbolises trust and confidence, especially in efforts to control the virus's spread.

### Yellow (Sunshade)

Yellow serves as an accent or secondary colour. It conveys enthusiasm and a proactive approach towards eradicating the virus.

# Stop the MARBURG VIRUS
